B.1 Workers' Compensation Claims Administrative Services

This is a fixed-unit price services contract for Workers' Compensation Claims Administrative Services for the U. S. Department of Energy's Hanford Site. The Contractor shall furnish all personnel, facilities, equipment, material, supplies, and services (except as expressly set forth in this contract as furnished by the Government) and otherwise do all things necessary for, or incident to, performing in an efficient and effective manner, all work set forth in Section C, Statement of Work.

B.2 Obligation of Funds and Limitation of Government Financial Liability

The total amount of funds presently obligated by the Government under this contract is \$1,830,676.23. The Government will obligate contract funds based upon the expected number and type of claims anticipated to be processed. If, in the Contractor's judgment, the total amount of payments that will be due to the Contractor within the next 60 days will exceed the total funds obligated, the Contractor shall notify the Contracting Officer in writing. The Contractor has no obligation to perform and the Government has no obligation to pay for services in excess of the total funds obligated.

B.3 Price(s)

The Contractor will be paid monthly to provide claim services. The Contractor will receive payment for opening the initial claim. In the event that the claim is reopened, no additional payment will be made. In the event that a medical only claim evolves into an indemnity claim, the Contractor shall invoice for the difference, if any, between the amount previously invoiced and the higher unit price. All claims will be paid at the rates set forth below:
